It's easy to transfer your mail-order prescription refills to *Medco By Mail*.

Thank you for choosing **Medco By Mail** for convenient delivery of your long-term medications. We are happy to assist you in transferring refills for your current prescription from your previous mail-order pharmacy to Medco By Mail.

No new prescription is needed if you have refills left on your current one.

To transfer your prescription(s) to Medco By Mail, choose one of the three easy methods listed below. Please have your member ID number on hand before you begin, along with the prescription number from a current mail-order prescription label or refill slip. Please start the transfer when you have a 2-week supply of medication.

On-line

- Visit **www.medco.com**.
- Activate your account by registering with your Medco member ID number and a recent prescription number from your previous mail-order pharmacy.
- Click on "Order status" and follow the instructions for refilling your prescriptions.

By telephone

- Call the toll-free Member Services telephone number located on your member ID card or other plan materials.
- Use our automated phone system to request your prescription transfer. If you need help, you will be transferred to a Member Services representative.

By mail

- Fill out the information on the other side of this form.
- Attach your most recent refill slip(s) in the space indicated.
- Use the included Medco By Mail Order Center envelope to mail us the completed form and your mail-order co-payment.

Please note that prescriptions for certain controlled substances and compound medications cannot be transferred. You will need to obtain a new prescription from your doctor for these types of medications. There may also be some situations when this transfer process will not be successful and you will need to request a new prescription from your doctor. If you request a refill that cannot be transferred, Medco will notify you to contact your doctor.
